

Call for papers
Special Session dedicated to
"Sustainability issues in Construction Project Management"

The session focuses on sustainable construction and construction project management (CPM) for sustainable development and embraces (but is not limited to) the following topics:

- Assessing Project Sustainability
- Weak versus Strong Sustainability in CPM
- Relating Project Sustainability to Economic Development – The role of the Government
- The Environmental Dimension in CPM
- The Social Dimension in CPM
- Local versus Global Effects of Construction projects and their Management
- Sustainable Construction, Assessment Methods and Tools – Benchmarking, LCA, Ecological Footprint, Other Software Tools
- Construction Ecology
- Sustainability Accounting and Reporting in Construction Management – Corporate Sustainability
- Cybernetics and Systems Analysis in CPM
- The Viable System Model in CPM
- The Sustainability dimension in Procurement Systems.

The aim of the special session is to stimulate the exchange of ideas and the dissemination of research results in the field.
